RE: Kelly Gabriella Samuels

I have known Kelly in my capacities as the Honours programme coordinator, the convenor of a core module in the programme, 'History after apartheid: Critical concepts in historiography' and co-convenor of an elective module, 'Forensic History'.

Kelly entered our Honours programme in 2022 and I taught her in both modules mentioned. She was an excellent student in both these modules. Kelly engaged with difficult texts, wrote wonderful, thought-provoking seminar submissions, research proposal and essays. Her final research essay was well received and the external examiner commended Kelly on the high level of engagement that her work displays. We encouraged Kelly to continue her postgraduate studies at the Masters level.

My interactions with Kelly have left me with the impression of a highly intelligent, diligent, compassionate, and passionate young person. I have no hesitation in recommending Kelly for any position she applies for.
