TEACHING POSITION WANTED | RECENT GRADUATE | PREVIOUS EXPERIENCE IN TEACHING ON THE JOB | MULTICULTURAL | POSITIVE ATTITUDE | SAFETY MINDED | ADAPTABLE | TEAM PLAYER | INTEGRITY

Teaching experience including but not limited to teaching civilian aviation practices. Also teaching informational work-based groups of around 8 people in a professional military aviation setting in the past. Committed to creating a positive work atmosphere with a strong drive towards excellence. Effectively worked with many nationalities and supervisors from worldwide locations. I am currently seeking a job in academia for the foreseeable future. Willing to relocate for work as well travel according to the company needs. Recently lived in Japan for the last year of my bachelor's degree schooling.

EDUCATION, TRAINING & CERTIFICATES

- Bachelor's Degree in Global Studies, Security Track - Temple University Japan
- Associate in Science - Aerospace Ground Equipment, Community College of the Air Force

EXPERIENCE

Signature Flight Support - Asheville Regional Airport

10/2020 – 05/2021

Line Service Technician

- Selected to teach new hires refueling and truck operations to eventually sign them off in their tasks to be proficient.
- Understanding and complying with operational, safety and customer service requirements including cargo handling and shuttle services
- Operational duties as requested including fueling, documentation for fueling, shift change and commercial airlines communications
- Ability to work for extended shifts, holidays, and weekends and support on call status for 24 hours-a-day, 7 days-a-week, 365 days a year
- Greet, park, tow, move, and marshal aircraft arriving or departing ramp
- Assisting Customer Service Representatives as needed

United States Air Force - Whiteman AFB

2/2016 - 2/2020

Aerospace Ground Equipment Journeyman

- Teaching a group of around 8 younger Airmen in operational scheduling, work, special tasks and as needed one on one attention in the field for tasks the Airmen needed explained more thoroughly and reviewed by me. This teaching lasted around 2 months.
- Supported 24/7 coverage to Air Force One Presidential transport while overseas directly impacting the first United States summit with North Korea
- Completed 116 powered inspections and 46 maintenance actions on powered equipment with a 95% Quality Control Pass rate within 6-month span
- Ability to work for extended shifts, holidays, and weekends and support on call status for 24 hours-a-day, 7 days-a-week, 365 days a year
- Maintained daily records of receipts, tags, personal equipment, tools, and designated specialty tools resulting in professional organizational skill development and accountability based clerical procedures
