Objective

As a recent graduate passionate about education, I am excited about the prospect of applying my teaching skills in an international setting. With a Bachelor's Degree in Psychology and hands-on experience in teaching, I am equipped to create an engaging and supportive learning environment for students of diverse backgrounds. During my tenure as a teaching assistant, I developed adaptable instructional strategies that cater to various learning styles, fostering a dynamic classroom atmosphere conducive to growth and comprehension. My dedication to fostering students' language proficiency and cultural awareness aligns perfectly with the challenges of teaching English abroad. I am eager to immerse myself in a new cultural landscape, bringing enthusiasm, creativity, and a commitment to educational excellence. My goal is to not only teach English but also to inspire students to become confident communicators in a global context.
